With a focus on life course, the ACIM addresses disparities in maternal health to improve maternal health outcomes, including preventing and reducing maternal mortality and severe maternal morbidity. The ACIM provides advice on how best to coordinate myriad federal, state, local, and private programs and efforts that are designed to deal with the health and social problems impacting infant mortality and maternal health, including implementation of the Healthy Start program and maternal and infant health objectives from the National Health Promotion and Disease Prevention Objectives (i.e., Healthy People 2030).

The agenda for the June 22-23, 2021, meeting is being finalized and may include the following topics: discussion of recommendations by ACIM to the Secretary; updates from HRSA's Maternal and Child Health Bureau, and other federal agencies; the Centers for Disease Control and Prevention's Pregnancy Risk Assessment Monitoring System survey; and patient-physician racial concordance in health care.
